

1 **Blue Tongue Skinks** actually have green blood, caused by Biliverdin, a green tetrapyrrolic bile pigment in the blood.

Animal Care Tips –

Blue Tongue Skinks are Omnivores so need a balance diet of live food, meat and also fresh fruit and vegetables.

2 Dude has a variety of the following –

Earthworms	Defrosted Pinkies
Mealworms	Strawberries
Crickets	Blueberries
Locusts	Grated Carrot
Snails	Kale
Cockroaches	Spring Greens

Their food is dusted with Calcium Supplement every other feed, this prevents Metabolic Bone Disorder
